

A DEEPLY RESTORATIVE FLOATING Sound Bath EXPERIENCE

Join us at Eagle Ridge Resort & Spa at the main lodging at the pool for a serene Floating Sound Healing experience with Christy Lenaers. This immersive session blends the therapeutic tones of crystal singing bowls, and a variety of harmonic instruments with the gentle support of water while you float, guiding you into deep relaxation and inner calm.

As you settle in and float, sound vibrations travel efficiently through the water, soothing the nervous system and creating a deeply restorative meditative state.
